

# State Swim Systems - In Term Swimming Program

State Swim Systems have been delivering aquatic education to the Perth community for over 15 years through our private indoor heated swimming schools. We teach over 7,000 children per week the important skills of learning to swim and being safe in the water. Our unique program has been widely recognised as one of the best in Australia through a combination of a structured learning program along with our own dedicated indoor heated facilities.

We would like to take this opportunity to discuss with you our In Term Swimming options. State Swim have three options available for local schools to conduct their In Term Swimming programs with us.

**OPTION 1:** We provide your school with the entire program. We provide you with pool space at one of our schools, enrolment notices to go home to your parents, we then collect them from your school, organise your children into the appropriate level and finally and most importantly we organise our fully accredited instructors and supervisors to deliver our In Term Swimming Program. All children receive a certificate at the end of the program detailing the skills they have completed and the level they should enrol in next time, be it with us or any other provider.

**OPTION 2:** We provide the same as in OPTION 1 however we conduct the program at your Schools Pool.

**OPTION 3:** Using our indoor heated schools for your own In Term Swimming program, this is where you, or the education department, provide the swimming instructors to teach your children. We simply provide you with the water space.

We can also provide you with water space for any special activities you may wish to conduct with your students, be it for a PE class, a before school swim club, doing some training for any upcoming carnivals or even for running your actual carnival. Whatever the circumstance, State Swim can offer your school a professional alternative to your local leisure centre.

## Other benefits of using State Swim as your chosen Aquatic Education Provider

- As our swimming schools are indoor and heated to 32 degrees you can choose to conduct your In Term Swimming during any of the four terms of the year without the concern of your children feeling the cold.
- As our swimming schools are private centres, there is no general access to the public, providing a safe environment for your children.
- Locations across the metropolitan area.

If you would like any further information please feel free to contact our office via email at [admin@stateswim.com.au](mailto:admin@stateswim.com.au) or phone us on 9339 4518.
