TEAM PROGRAMME

Our teachers and coaches are trained under the STATE SWIM SYSTEM ensuring the highest quality teaching and coaching techniques.

We are proud that our swim schools have a reputation for producing excellent swimmers, with the STATE SWIM distinctive stroke and style developed in every swimmer. Our programmes gradually nurture young swimmers into becoming strong capable swimmers, developing not only the fun and safety aspects of swimming but also the knowledge that the benefits of swimming will contribute to an ongoing healthier and fitter lifestyle.

We urge every parent to give their children the opportunity of spending some time in our development teams. You will be pleased with the progress they make. You will notice an improvement in their general health and fitness and their outgoing social development as they mix with other children, learn skills in space sharing whilst developing an affinity with the water that will remain with them throughout their lives.

All swimmers within our team programmes will be eligible to test for their 400 Gold Award during their time with us. The 400 Gold is the highest award in the STATE SWIM system and is recognised nationally as an achievement in style, speed and endurance in swimming.

Informal time trials and low key race meets are conducted regularly which gives our young swimmers the opportunity to test their interests in competitive swimming together with improving their performance at their annual school carnivals.
